BULLETIN NO. 5. SPRING, 1912

SPRING HILL NURSERIES

TIPPECANOE CITY, OHIO

Special Price List of Fruit Trees, Small Fruit Plants, Vines and Ornamental Stock

Best Quality, Careful Handling, Satisfactory Dealings and Reasonable Prices

YOU realize that the planting of trees is a necessity and not a luxury. We know your greatest problems are to decide,—the kind of trees especially adapted to your lands, the varieties that will do best, and the firm to buy them of. The quotations made in this list are as low as good, clean, healthy stock can be grown and placed on the market. Our prices are based on the quality of goods furnished our customers, allowing us a reasonable profit.

Our Guarantee—We guarantee our stock to be just as represented in every way and if at any time any stock is found otherwise, it will be replaced free of charge, or your money refunded. When you receive your goods, if the stock is found to be under grade, or an unsatisfactory grade or quality, notify us and we will adjust satisfactorily. We will refund the money or send you other trees in place of them.

With each order we send a booklet called, "Transplanting and Afterculture." This will be a very helpful and useful guide for you in caring for your trees.

In case we may be able to assist you in the choice of your stock do not hesitate to write us. Yours very truly,
SPRING HILL NURSERIES.

Worden Grape

Grapes

Grapes are easily raised, can be grown in many different ways and places, with but very little care and produce a crop of fruit within a very few years after planting. The cost of the plants is so small that any one, even those who live on rented property, cannot afford to be without from 6 to 12 grape vines. One crop of fruit will many times more than pay you for the cost of the vines and your trouble.

Mulberries

Protect your orchards and small fruits from birds by planting a few Mulberry trees which will supply all the food necessary for birds, besides attracting a number of birds to your orchards that will catch insects. The expense of this is nothing compared to the benefit derived.

Mulberry Trees, 5 to 7 ft., 20 cts. each.

Mulberry Trees, 3 to 4 ft., 15 cts. each.

Mulberries

CHERRY TREES

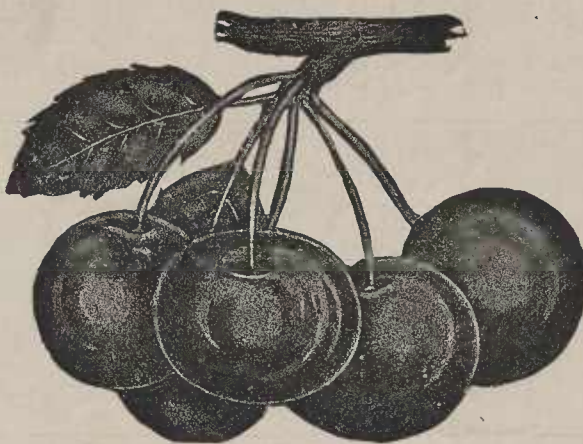

Plant a cherry orchard. What would be more profitable or more beautiful than a row of cherry trees around your farm?

Cherries adapt themselves to almost any soil. While they prefer clay, they will grow in low places, with surface draining, or in sandy soil. A cherry tree likes plenty of sunshine.

Cherries are infected by fewer diseases and insects than any other fruit tree. It is not necessary to spray cherry trees although spraying will benefit the tree. The San Jose scale never bothers sour cherry trees.

Our cherry stock is as fine as you have ever seen. They are all budded on imported Mahaleb stock, as this makes the best and longest lived tree.

FREE—Send for our 1912 year book. It will prove to be a book of true economy for you in the purchasing of your trees, plants and shrubs.

Montmorency Cherries

VARIETIES.

Large Montmorency—Late sour cherry, best known.

May or Early Richmond—Old standard sour variety.

Dyehouse—Early sour cherry similar to Early Richmond.

Late Duke—Between sour and sweet cherry, good.

Black Tartarian—Black sweet cherry.

Yellow Spanish—Yellow sweet; one of the best.

Governor Wood—Good yellow, sweet cherry.

Windsor—One of the best producers, good, large sweet cherry.

Two and Three Year Old, First Class.

Cherry trees, 5 to 6 ft., 30 cts.; per 100 \$20.00.

Cherry trees, 3½ to 4½ ft., 20 cts.; per 100 \$15.00.

Cherry trees, 2 to 3 ft., \$10.00 per 100.

All stock offered in this circular is packed and delivered at freight or express office, F. O. B., Tippecanoe City, Ohio, without extra charges. Certificate of nursery inspection attached to each shipment.

APPLE TREES

The apple is the king of fruits. Become an apple enthusiast: You can raise apples profitably and just as large, perfect and delicious as those raised any place in the United States. Everything depends upon the care of your orchard, the varieties adapted to your locality and above everything else the buying of high bred trees, grown for the purpose of producing fruit and not for the few dollars made in the selling of trees.

The proposition we offer at the bottom of this page for putting up grafts for these orchards, is a good one. If you doubt this, write your experimental station or take the matter up with any one who has had any experience in growing fruits and see what they have to say in regard to propagating apple, or other fruit from trees that are producing espe-

cially fine fruits. We have made a special effort along the line of propagating all trees from the best fruit producing trees.

The apple adapts itself to a great variety of soil, but will seldom thrive and do well on very dry sand or soil which has not been well drained. Many New England orchards are very flourishing and productive on soil so stony and rock covered as to be unfit for any other crop. Do not allow the apple orchard to be the most neglected part of the farm.

If in need of help in the selection of the varieties best adapted to your soil, write us. Our pamphlet of instructions for transplanting will be sent you free of

charge, for the asking. The varieties we are offering below are long tested, well known kinds and you will not make a mistake by ordering any of them.

Summer, Fall and Winter Varieties

Early Harvest—Fruit, clear pale waxen yellow. Desirable for home orchard because it is one of the earliest. Excellent for dessert and culinary uses. Late July—Aug.

Maiden's Blush—Well known. Sept.—Oct.

Patton's Greening—Fruit medium to large, pretty uniform in size and shape; color is clear pale greenish yellow, sometimes blushed. Good for culinary purposes. Oct.—Jan.

Salome—Fruit is medium to large size, skin pale yellow with red stripes; quality varies with the season. Oct.—Dec.

Sweet Bough—Large, light yellow, tender, sweet and excellent for baking. One of our finest Summer apples. Aug.—Early Sept.

Western Beauty—Pale yellow, brightly splashed with red. Bears early and is a reliable cropper. Most desirable for home and market. Oct.—Nov.

Yellow Bellflower—Pale yellow with a blush. Excellent quality. An old favorite.

Yellow Transparent—Pale waxen, transparent yellow. Bears young. Splendid for home and market. July—Aug.

Arkansas Black—Large and handsome crimson black apple. Very popular in the South. Dec.—Apr.

Delicious—A great market apple, very productive, large, deep red. Very popular. Dec.—Mar.

Gano—Large, deep red fruit. Very productive, good keeper, profitable market variety. Dec.—Mar.

Hubbardston Nonesuch—Large apple, yellow overlaid with red. Bears heavy crops. Nov.—Jan.

Jonathan—A medium sized apple, pale yellow, heavily flushed with red. Quality is excellent. Nov.—Mar.

King of Tompkin's County—A red apple of extraordinary size and fair quality. Abundant annual bearer. Nov.—Mar.

Mammoth Black Twig—Large, dark red apple, regular, abundant bearer. Nov.—Apr.

Minkler—Large apple, with greenish yellow skin, striped with red, of excellent quality.

Northwestern Greening—Abundant bearer; greenish-yellow when fully ripe; good keeper. Jan.—June.

Park Spice—Red apple, fine for cooking, good bearer, keeps well.

Pewaukee—Bright yellow, flushed with dull red, of good to best quality. Well suited to cold climates. Jan.—May.

Rawley's Genet—Fruit medium size, skin yellowish green, striped red. Tree is vigorous and prolific. Jan.—Apr.

Rome Beauty—One of the best apples in cultivation. Handsome apple, yellow with crimson cheek. Good quality. Nov.—Feb.

Stark—Golden green, with crimson shadings. Bears early, abundant, regular crops. Jan.—May.

Wagoner—Fine, deep red apple. Tree bears young and yields good annual crops. Dec.—May.

White Pippin—Creamy yellow. One of the largest winter apples, of fine quality. Tree is a good bearer and long lived. Jan.—June.

Wolf River—Bears heavy crops, alternate years. Large greenish-yellow apple, flushed with crimson. Jan.—Feb.

York Imperial—Fruit clear waxen yellow, flushed with carmine. Annual bearer. Good keeper, adapted for marketing. Dec.—Feb.

Transcendent Crab—One of the largest and best of the crabs. Bright yellow, striped red. Good for culinary use. Late Aug.—Sept.

Whitney Crab—Light yellow, largely shaded and striped with red. Bears young and is very productive. Excellent for dessert. Aug. and early Sept.

Prices of Apple Trees

	Each	Per 100	Per 1000
Apple trees, 2 yr. old, 5-7 ft., branched tops	30 cts.	\$25.00	\$220.00
Apple trees, 2 yr. old, 4-5 ft., branched tops	25 cts.	22.00	200.00
Apple trees, 2 yr. old, 3-4 ft., branched tops	20 cts.	18.00	150.00
Apple trees, 1 yr. tops and 2 yr. old roots, 4-5 ft.		17.50	150.00
Apple trees, 1 yr. tops and 2 yr. old roots, 3-4 ft.		15.00	130.00

Your Own Apple Orchard

For an exceedingly small sum we will graft up your favorite varieties of apples from wood from your own trees. In this way you will have varieties especially adapted to your location and trees that will produce an extra quality of fruit. This means you get high bred trees, especially adapted to your conditions which is a great item for you to consider.

We find it has proven very convenient for those who wish to grow large orchards to have the grafts put up and plant them in Nursery rows. If planted in good ground and cultivated well you can usually get a growth of from 4 to 5 feet the first season and can grow from 15 to 17 thousand grafts to an acre. This makes a very convenient way to start a large orchard. You can sell enough trees to your neighbors to more than pay for your trouble in growing them at the same time having what you need for your own planting.

We will make special prices for doing this work in lots of 500 and up, to be grafted on good clean, healthy roots, wrapped and tied in bunches of 50 each,

and packed in boxes ready for shipping. If you wish to furnish the wood for the varieties you want we will be glad to give you instructions as to how to cut the limbs, pack and ship same.

We always have quite a lot of light cherry, pear, plum and peach that can be planted in Nursery rows and grown one year. These will make good big trees to plant in your orchard, trees that will grow very rapidly after transplanting. We are in a position to make you close prices on any of this stock.

It is necessary for us to know as early in the season as possible the amount of stock you would want so we can reserve good, clean, healthy roots for grafting or hold what varieties wanted of the small trees.

We hope you will carefully consider the above proposition and write us for prices and terms.

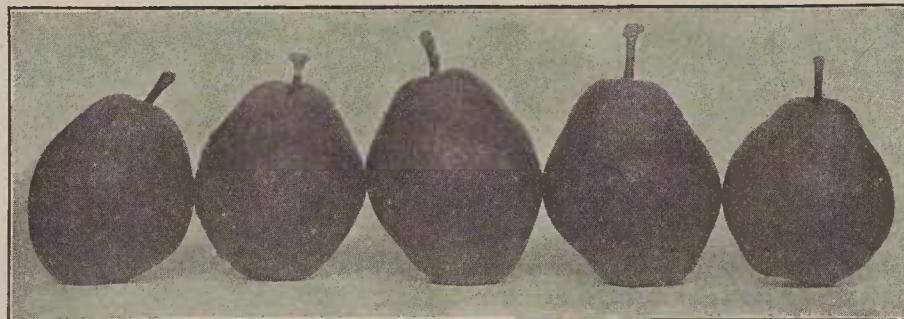

Pear Trees

The home orchard is incomplete without pears. They are a staple and profitable commercial crop in nearly all parts of the country. They thrive best on a hard clay soil.

Pear Standard—5 to 7 feet
30 cts. each \$25.00 per 100

Pear Standard—4 to 5 feet
25 cts. each \$18.00 per 100

Pear Dwarf—3½ to 4 feet
15 cts. each \$12.50 per 100

Keiffer Pear

Varieties

Bartlett—Well known high quality.

Keiffer—Big cropper, with less trouble than any pear known.

Clapp's Favorite—Well known standard variety.

Flemish Beauty—Well known standard kind.

Seckel—Very hardy, long lived tree, small fruit, best dessert pear.

Duchess Dwarf—Very large fruit, early bearer, and prolific.

Fruit trees live from twenty to more than one hundred years, so they are well worth careful planting. Our trees are propagated on the same principle as these old trees still standing.

Spring Hill Nurseries, Tippecanoe City, Miami Co., Ohio.

REAL BARGAINS in fruit trees, ornamental trees, vines, shrubs, and roses. A guarantee with each collection, the same as that given with every tree, plant, or shrub we send out.

Of course, if our trees were not up to the standard and first class, as represented, we could not afford to make such a guarantee. Our guarantee is good. We refer you to any bank, business man, farmer, or professional man in this vicinity, or the Fourth National Bank, at Dayton, Ohio.

On the back of this you will find a list of the collections and the amount of same. You may check off the collections you are ordering, keeping a record of the number of the collection you have ordered, tear off the coupon with the special offer you wish to order; and if more than one collection, always write your name and address on each collection and guarantee. You may enclose the total amount as one payment in check, money order, draft, or express order, whichever is most convenient to you.

Be sure to write your name and address on all collections or orders you send in. It saves us chances of making errors in your shipments. A certificate of inspection is attached to each shipment or package, and a guarantee goes with every order. On receipt of your order, we will send you an itemized statement of the varieties and the number in order that you may have a written statement from us to keep as a record. Our proposition to you is not a verbal one, but a written guarantee. All stock offered on these coupons, or in our Year Book, is packed and delivered at the express or freight office at Tippecanoe City, Ohio, except where noted.

The express rate on trees and plants is twenty per cent. less than the regular merchandise rate, express and freight charges are a very small item.

COLLECTION NO. 1-A.

52 Trees and Plants, \$7.50.

Order blank with guarantee on other side of this slip. All budded and grafted trees and plants of the following kinds:

16 Apple Trees, 4-6 Feet.

Enclosed find \$..... for any one of Collection No. 13-A (designate here which ones).....

It is understood that these trees are to be good, healthy trees, of size and quality named on opposite side of this slip; and if found otherwise, I am to return same, and my money will be refunded, together with the express or freight charges I paid. If any part of these trees are in bad condition, I am to notify you, and you are to send other trees that are good, to replace same, free of any charges to me. My choice of varieties is marked on the opposite side of this slip.

Plum Trees

Our plum trees are grown from buds, propagated on Maribolan plum stock, which insures a long lived tree and but very little danger of borers. While the plum as a fruit for commercial value has not been as great a money maker as other fruits, it comes mighty nice to have a few of them in your home orchard for your own use.

Plum trees, 2 yr. old, 5 to 7 ft., 30c each, \$25.00 per 100
Plum trees, 2 yr. old, 4 to 5 ft., 25c each, 20.00 per 100
Plum trees, 2 yr. old, 3 to 4 ft., 20c each, 15.00 per 100

VARIETIES OF PLUM TREES.

Abundance—Japan sort, good purple.
Bradshaw—Very large, dark violet red, flesh yellow.
Burbank—Large fruit of deep cherry red, flesh deep yellow, very sweet.
Lombard—European sort of medium size, light blue, juicy, pleasant.

Guil—Large, deep, bluish purple, coarse, but sweet and good.

Wickson—Maroon red, sturdy grower, firm, sugary, flesh of fine texture.

Shropshire—Damson, the largest of the Damson class and an old favorite. Trees very productive and sturdy grower.

German Prune—A valuable plum for dessert, large, purple and thick skin. Flesh firm, sweet and pleasant.

Moore's Arctic—Small to medium with purplish black skin. Tree is healthy and vigorous.

Elberta
Peach

Peach Trees

Peach trees, 4 to 6 ft. 20 cts. each, \$15.00 per 100
Peach trees, 3½ to 4 ft. 15 cts. each, 10.00 per 100
Peach trees, 2½ to 3½ ft. 10 cts. each, 7.00 per 100

All peach trees are propagated from natural peach pits secured from North Carolina where there are no Yellows or other fatal peach diseases.

The following varieties are budded on this stock. Varieties of Peach Trees as follows:

Champion—Creamy white, freestone. August.

Crosby—Yellow freestone. September.

Crawford's Early—Yellow freestone. August.

Crawford's Late—Yellow freestone. September.

Wonderful—Yellow flesh. September.

Yellow St. John—Yellow freestone. August.

Belle of Georgia—Yellow freestone. Medium early.

Stump—White freestone. September.

Fitzgerald—Yellow freestone. September.

Kalamazoo—Yellow freestone. September.

New Prolific—Yellow freestone. September.

Triumph—Yellow freestone. September.

Gold Drop—Yellow freestone. September.

Smock—Yellow freestone. September.

Heath Cling—White. October.

Lemon Cling—Yellow. September.

RASPBERRIES

For quick returns on your farm the raspberry is one of the best to give a good crop of fruit the second year after planting. The following kinds are well tested, have proven to give good results wherever planted and with less trouble than other varieties.

Raspberries\$2.00 per 100, \$15.00 per 1000

Cardinal—Purple, big crop producer; very hardy.

Gregg—Well known kind large black berries.

Cumberland—The best black raspberry we know of.

Haymaker—Purple; good producer.

Columbia—Red tip raspberry.

King—Red, early sucker plants.

Cuthbert—Best red sucker plants.

Kansas—Good black variety of easy culture, very hardy.

BLACKBERRIES

The ideal crop to obtain money from poor land with easy culture and as sure a crop as any fruit known. The best varieties for all purposes we offer below.

Blackberries\$2.50 per 100, \$18.00 per 1000

Early Harvest—Good early variety.

Eldorado—Hardy and the greatest blackberry ever introduced and has proven good wherever it was planted.

Snyder—An old standard kind, big producer and very hardy.

STRAWBERRIES

Our instruction pamphlet gives information in regard to strawberry culture. It is not necessary to take up space to tell all the good things about strawberries. How easy it is for everyone to have plenty of berries and some to sell, with but very little expense and work. Our plants are not taken from fruiting patches, but are especially grown for home and commercial planting, and are of the highest class and quality of plants.

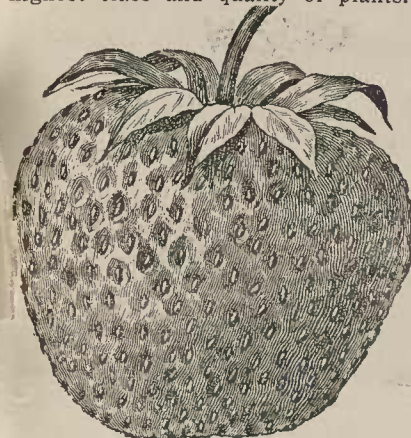

The following are good standard kinds and you are sure of success if you plant them.
Strawberry plants, 60 cts. per 100, \$4.50 per 1000.

Uncle Jim (Perfect)—Very large; medium late.

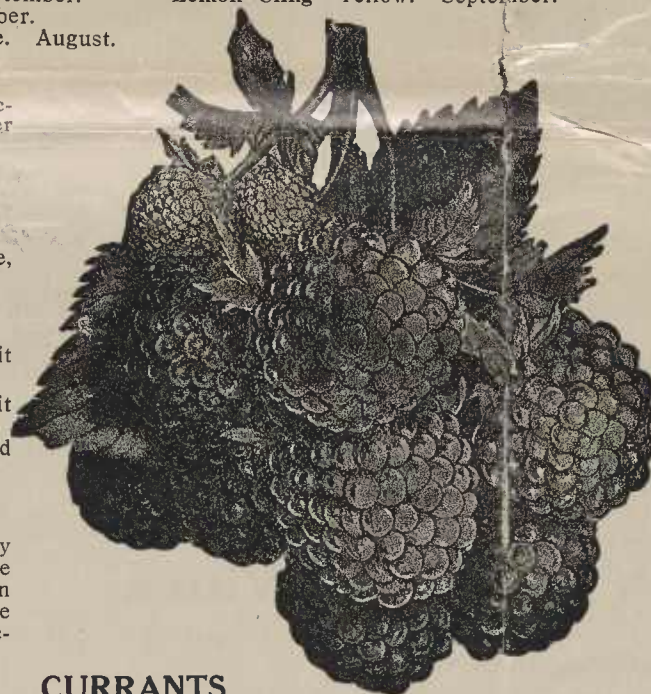

Senator Dunlap (Perfect)—Large, big producer; and continues bearing for about a month.

Gandy (Imperfect)—One of the best late bearers.

Enhance (Perfect)—An excellent good berry and considered one of the best.

Uncle Jim

CURRENTS

Hardy Fruit, easiest culture of any bush fruit and should be planted by everyone.
Prices—10 plants, your choice of kinds, postage paid \$1.00. 100 plants, your choice of kinds, by express \$5.00.

All good, 2 yr. old, field grown, plants following kinds.

Cherry—Large red fruit, strong grower.

Fay's Prolific—Very hardy, great producer.

London Market—One of the best market varieties.

Wilder—Big money maker, best known.

White Grape—One of the best white currants.

Black Champion—Good black variety.

GRAPE VINES

Grape Vines, 2 yrs. old, No. 1, 10 cts. each \$8.00 per 100
Heavy 1 yr. old, No. 1 5.00 per 100
10 Vines postage paid, purchaser's choice of varieties \$1.00.

Agawam—Dark red, large fruit.

Brighton—Best early red grape.

Catawba—Best red grape.

Concord—Best and most prolific. A favorite of all.

Delaware—Red grape, small berry, good bearer.

Moore's Early—Good early, black grape.

Niagara—White, none better.

Woodruff—Red grape. Fine quality.

Worden—Seedling from Concord, a few days earlier, same quality.

American Arborvitae, 18 to 24 in.	.15	12.50	110.00
	.10	9.00	80.00

Special List of Hardy Shrubs

Everyone is beautifying his home grounds. Why not start your improvements now? Without shrubbery it is impossible to create proper landscape effects, but with it any property can be very much enhanced in beauty and value. Properly arranged shrubbery does not take away the beauty of the lawn, but rather it gives it the appearance of length and width which seems to increase its size. For screens to hide fences or unsightly objects, for hedges and for giving an air of privacy to the home, they are indispensable. If selected with reference to their time of flowering, it is possible to have the shrubbery plantation in continuous bloom from the first breath of spring, when the Forsythia displays its golden wealth, to the early snows of winter which often overtake the odd blossoms of the Witch Hazel. All shrubs are field grown, 2 to 3 years old, transplanted stock, have excellent roots, well branched tops and will bloom the first year after planting. We quote these at 25c each or \$20.00 per hundred except where noted.

Altheas, named colors,
Amorpha, Fruiticosa,
Amorpha, Canadensis,

Crown Jewel Gooseberry

Our new Crown Jewel Gooseberry is a seedling from an English variety which has adapted itself to the American soil and proven a great success.

OUR 1912 BOOK WITH PRICES WILL BE READY ABOUT JANUARY 1st. IT IS FREE FOR THE ASKING. IT WILL BE TRUE ECONOMY FOR YOU TO GET IT BEFORE YOU PLACE YOUR ORDER ELSEWHERE.

DO NOT BE influenced that our stock is not of the highest quality. Money cannot buy better. We can convince you of this fact.

SPRING HILL NURSERIES

Tippecanoe City, (Miami Co.) Ohio

January
Fifteenth,
Nineteen-twelve.

My Dear Sir:-

We now offer you the opportunity to buy your trees and shrubs direct from one of the oldest nurseries in the country. Our Senior member has been propagating and growing Nursery stock right here in the Miami Valley for the past sixty years. All

this experience of a life time is behind our concern and more too--experience has proven the climatic conditions in the Miami Valley where all our nurseries are situated are best adapted to the growing of Nursery stock that will transplant and adapt itself to all localities and soil, growing and giving results.

Our propagation is done on the same principle as that done years ago when orchards bore profitably for from forty to sixty years or better. While we are always looking for new methods of propagating trees and plants, we never give up an old method until the new one has proven best.

Never before have we been in position to offer as fine a quality of trees and plants, ornamental stock, etc., as we are this year. Regardless of our low prices, quality is our first consideration and every shipment sent out bears our written guarantee as enclosed. You take no chances, as we could not afford to put our stock under this guarantee if it were not of the highest and best quality.

As to our reliability we refer you to any Bank in Tippecanoe City, Ohio, the Fourth National Bank at Dayton, Ohio, or any farmer, business man or firm in this community or have your banker look us up. We assure you, you will never regret placing your business with us.

We especially call your attention to the unusual offers we are making on the enclosed coupons. No one can afford to be without trees at these prices--all covered by our broad written guarantee. We want your business and we are offering you the best quality of trees and shrubs at prices you cannot afford to ignore. We would advise you to place your orders as early as possible. Assuring you we appreciate any orders you may send us, we are,

Yours very truly,

Spring Hill Nurseries,

Per H. N. Kyle.

P. S. We are very much interested in learning the varieties of fruit that have done best this year in your locality; also the varieties and kinds of fruit you are interested in for your future planting.

County.....State.....

Name of Your Freight Station.....

Freight or Express.....Amount Enclosed \$.....

All Remittances by Post Office or Express Order, Draft or Registered Letter at Our Risk.

[illegible]

To help pay Freight or Express charges, you can select \$1.00 worth of any article in catalog for each \$10.00 order and in proportion on larger order.

ANY STOCK NOT AS REPRESENTED WILL BE REPLACED FREE OF CHARGE OR MONEY REFUNDED.

ADVICE AND TERMS

PLEASE READ CAREFULLY BEFORE ORDERING

Use Order Blank and catalog when making out your orders and do not mix your order and letter together on the same sheet.

GUARANTEE

We warrant our stock true to name with the express understanding that should any not prove so, we will refund the money paid or replace it with other stock, but are not liable for damage beyond this.

We are always willing at any time to correct any errors that we may make.

OUR PRICES

We are satisfied that our prices are as low as any reliable grower can offer the same grade of goods at and we do not believe that there is any grower that can produce trees, or plants of any kind that will stand transplanting and do as well as our stock grown in the Miami Valley. The soil and climatic conditions are such that the trees will do well almost any place in United States or Foreign countries.

ADDITIONAL CHARGES ON PLANTS BY MAIL

We can send plants to any part of United States in this way and have them arrive in excellent condition. If sent by mail add the following to prices quoted in catalog:

Strawberries, 10c for 50; 15c for 100

Raspberries and Blackberries, 10c per dozen

Raspberries and Blackberries, 50c per 100

Currants, Gooseberries and Grapes, 1 year old, 20c per doz.

Currants, Gooseberries and Grapes, 2 years old, 40c per doz.

Our shrubs are all too large to be sent by mail, as they are 2 years old and but very few varieties under 2 feet, and very bushy plants.

CLAIMS

All claims and complaints must be made within ten days after receipt of stock.

OUR TERMS

Payment invariably in advance; goods sent C. O. D. only when one-fourth of the amount is sent with the order. Be sure to give your name in full, Post Office, R. F. D., County and State each time you write. If you want goods sent by freight or express, state what express and the place of your express or freight office.

ONE SPRAYER FREE

To introduce the new "KANT-KLOG" Sprayer we offer one free to the first reliable applicant in each locality.

This Sprayer has individual and distinct features found in no other line. The "KANT-KLOG" is the first and only nozzle ever made to give both flat and round sprays and solid streams. The new Spring Hose Cock starts or stops the spray instantly, so preventing waste of fluid.

Sprays Trees, Potatoes, Vegetables, Vines, Whitewashing, Disinfecting and many other uses.
